

Hello Everyone!

Milton D. Frog here with PARMA HOBBY'S June E-Letter. I have news of TWO big events happening at PARMA HOBBY this month. WAIT - make that 3 big events:

AUTOFEST JUDGES	
MODEL DISPLAY	Began May 12 th , runs through the end of June
MAKE 'N TAKE	Saturday, June 13 th
FATHER'S DAY	Sunday, June 21 st

Event #1:

The four guys who judged the models for the AutoFest 2009 contest in April have brought in examples of their work. Chuck, Jim, Jim and Kevin have a wide range of interests when it comes to model building. In the display case are autos and trucks (full range of scales!), airplanes, and fantasy figures. Kevin and Chuck both brought in snap kits that they have "customized". See if you can tell which kits started out as a "Snap"! They have also provided information about "WonderFest", a modeling competition held in Kentucky every year. Visit the website www.wonderfest.com to learn more.

Event #2:

In celebration of the 2nd Annual Revell National Make 'n Take, PARMA HOBBY is having a special promotion:

3 WILL GET YOU 5 !!!!

No, you don't have to be 18 to participate – there's no gambling involved at all!

On Saturday, June 13th, from 10:00 a.m. to 2:00 p.m. (or while supplies last) you can buy and build the Revell SnapTite SPACE SHUTTLE kit for \$3.00 and get a \$5.00 coupon to use on any future purchase! See, no gambling involved -- you can't lose! (Limit one kit per person)

This is a great chance to introduce new modelers to the hobby, or bring a youngster in to experience the thrill of creating something --- at very little cost and with added savings. We will have a table set up and you can build the Space Shuttle right there in the shop with the help of experienced modelers. The \$5.00 coupon can be used on any purchase of \$20.00 or more.

Event #3

While PARMA HOBBY may not have invented or even sponsored Father's Day, if you get anything from here FOR Father's Day, or GIVE something to someone for Father's

Day it will be a **HUGE EVENT!!!!** See below for more information and great ideas! We even have **Gift Certificates** to give to Dad for Father's Day if you can't make up your mind what to give him.

IDEAS SUGGESTIONS WISHES HINTS

Apache Catamaran EP RTR

Off-shore racing style & performance in a handcrafted electric RTR. The Pro Boat® Apache™ 24 RTR features a high-performance, water-cooled 550 motor that's engineered to provide plenty of power and torque for long, full-throttle runs. Its durable catamaran hull and steerable drive

system allow the Apache 24 to cut turns at top speed and still handle beautifully. There's no question that boating aficionados will be in a hurry to add this Pro Boat beauty to their fleet.

OUR PRICE: \$159.99 (List: \$259.99) IN STOCK

Villain EX Deep-V RTR Racer

14.4V The Traxxas Villain EX sets the new benchmark in electric deep-V performance. Ready for a hot new boat that comes blasting straight from the box ready to tear through some waves? The new Villain EX from Traxxas is a high-powered electric Deep-V racer that boasts an impressive dual-drive propulsion system powered by twin Titan 550 motors. A water-cooled EVX electronic speed control fuses the power from two 7.2V battery packs

and feeds a sizzling 14.4 volts to the twin Titan drive system. Other highlights include a newly designed sealed radio compartment, Twist-Lock easy-access top deck and Traxxas' trusty TQ pistol-grip radio system. A distinctive graphics scheme gives the Villain EX an authentic offshore look.

OUR PRICE: \$259.99 (List: \$410.00) IN STOCK

Classic Runabout EP RTR The Pro Boat Classic Runabout is a ready-to-run 29-inch electric-powered boat. In the lake or on your mantelpiece, Pro Boat's highly detailed Classic Runabout ready-to-run (RTR) is a gorgeous addition to any model boat collection. Real wood trim is layered on a fiberglass hull with highly detailed hull, dashboard, and interior. No assembly is required for this excellent showpiece .

OUR PRICE: \$329.99 (List: \$499.99) IN STOCK

Just In Time For Father's Day! Price Reduced!!!!

AXE 400 3D RTF

This is the electric powered, radio controlled, ready to fly Heli-Max Axe 400 Aerobatic Mini Helicopter. This heli is loaded with features, including: Airframe is rigid molded two piece design, includes a Futaba 6EX 6-channel 2.4GHz system with four high-torque Futaba S3114 micro servos and R606FS 2.4GHz FASST receiver. The gyro is a Heli-Max Pro

heading lock gyro with dual remote and mechanical gain adjustments, and the tail boom allows drive belt adjustments without changing tail linkage. The electronic speed control is a 25A brushless ESC with 2A BEC and Deans Ultra plug connectors.

The RTF Heli-Max Axe 400 includes the aerobatic mini helicopter, brushless motor, 2.4GHz Futaba radio system, ESC, blades, decals, and instruction manual. You will need to purchase separately an 11.1V LiPo battery pack with Deans connectors, AA batteries for the transmitter and a LiPo compatible charger/balancer.

PRICE REDUCED: \$379.98 (List: \$649.99)

Novus FP Micro 2.4GHz RTF Heli

This is the electric powered, ready to fly, 2.4GHz Novus Fixed Pitch Nano Size Helicopter from Heli-Max.

This heli features agile flying forward, backward and sideways with a stable hover, Rotor Head and Swash Plate made of CNC aluminum with the tail rotor

gear driven, powered by a compact N51 motor. The radio is a Heli-Max 2.4GHz 4-channel with two digital servos for high-speed stability and precise centering. Servos weigh only 3g each.

OUR PRICE: \$159.99 (List: \$249.99) IN STOCK

Novus CP 2.4GHz Nano Sized RTF Heli This is the electric powered, ready to fly, nano size Novus Collective Pitch Helicopter from Heli-Max.

This heli is capable of a wide range of fully aerobatic maneuvers including flying inverted. The rotor head is Collective pitch type with

Bell-Hiller mixing and an eCCPM control system for high performance usually found on much larger helis. The tail rotor is bevel gear driven, supported with ball bearings and the radio is a Heli-Max 2.4GHz 6-channel with three digital servos for high-speed stability and precise centering. Servos weigh only 3g each.

OUR PRICE: \$219.99 (List: \$349.99) DUE MID-JUNE

These would look great on your planes or heli's!!!!

Light Tube Kit

Perfect accessory for night flyers!

Now R/C drivers and pilots can create a truly distinctive look by mounting a Light Tube Kit to their model! The controller mounts easily with included double-sided tape, and allows for switching from constant light to blinking mode. Made of Electroluminescent Lights. The light tubes are 18" long; with 2 plugs to allow for attaching more than one light tube to a model. The controller plugs directly into an open slot on any receiver or into an auxiliary battery. Light kits come in four different colors (red, white, blue, green)

OUR PRICE: \$19.99 IN STOCK

85-7551	1/24	'30 Ford Model A Coupe	\$23.00

All kits are on order; some of the kits will have limited production runs. If you want to reserve one or two, let us know as soon as you can. As a Revell Preferred Partner, we receive the kits directly from Revell and generally before their announced release date.

Well, that's about it for this month's news. Remember to stop in any time: the coffee is always hot and the cookies are generally not too stale!

See you soon:

Bob, Sandy and Chris

And *Milton D. Frog*
